Insurance Corporation of British Columbia (ICBC)
North Vancouver, BC

Subject: Information Management Co-Op Student (V#00966221)

Dear Hiring Manager,

I am Sanjana Arora, currently pursuing my last academic term of Master of Engineering in Applied Data Science program at University of Victoria. I was so excited to see a vacancy for an Information Management Co-op opportunity at ICBC posted on the University's career portal. Each and every vehicle parked on public streets in British Columbia is covered by ICBC's insurance package and it would be an absolute honour to start my Canadian work experience with such a well known organization like ICBC.

During my post graduate experience at UVic, I've had the opportunity to learn about the different tools and techniques to handle big data. As a part of my curriculum, I have worked on projects using tools such as Hadoop, SQL, Scala, image processing operations using Python, etc. as also captured in my resume. The learnings gained through these projects would eventually help me in data management and analysis of ICBC's Enterprise Data Warehouse.

Prior to my post-graduation at UVic, I worked as a Senior Patent Analyst for five years where I was responsible for advising my clients for having some of the key acquisitions and partnerships based upon the analyses of their patent portfolio. We used different information visualization tools such as Tableau, to prepare interactive dashboards that ultimately helped our clients to derive quick insights from our analyses of 2000+ patent data. Working on such projects honed my presentation skills and the ability to deliver quality work even during tight timelines.

I am just finishing my academic terms at UVic and it would be a pleasure to gain full-time work experience in data analytics with ICBC for the next 8 months, i.e., 2 consecutive work terms of my MADS program. I've attached my resume, which further details my skills and education. Thank you for your consideration. I look forward to setting up an interview with ICBC. Please feel free to contact me at sanjanaa@uvic.ca.

Yours Truly,

Sanjana Arora
